EASY MAPPING & DATA COLLECTION

SMART MAPPING AND FORM TOOLS FOR PROFESSIONALS

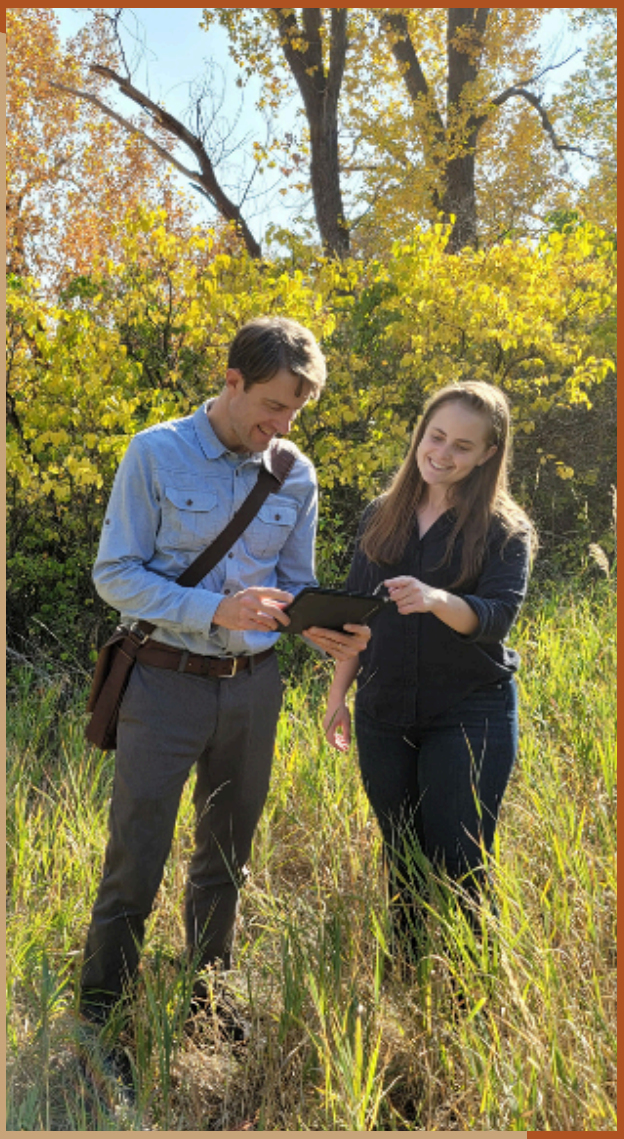
MapItFast™

STRIDER
Mobile Form and Reporting System

STREAMLINE YOUR FIELD OPERATIONS

MapItFast™

POWERFUL MAPPING HAS NEVER BEEN THIS EASY



ONE TAP TO MAP

Points, Lines, Polygons and Geophotos

Collect different types of GIS data easily with mobile device GPS, Bluetooth GPS, or hand-drawing tools. Mapped objects and attached forms are available for immediate review and editing.

SIMULTANEOUS MAPPING

Simultaneously Map Various Object Types

In MapItFast, field workers have the unique capability to map points, lines, areas, and geophotos simultaneously. They can initiate a tracking line for the day, set waypoints, and map additional lines or polygons all at once.

CUSTOMIZABLE MAPPING

Private Maps for the Team

Quickly switch between built-in basemaps or create custom basemaps and layers for offline use. Define data dictionaries for field users to map unique elements consistently and efficiently.

BUILT FOR COLLABORATION

Web and mobile apps stay in sync

With MapItFast your entire staff stays connected. Office workers can visually communicate project tasks and monitor field team progress, while field users can track the team and share custom reports with embedded maps before leaving the worksite.

SIMPLIFY RECORD KEEPING AND REPORTS

STRIDER
Mobile Form and Reporting System

CAPTURE DATA, SHOWCASE IT CLEARLY

BREAK FREE FROM PAPER

Advanced Electronic Smart Forms

Link forms to any map object and complete them directly in the MapItFast app. It's secure, accurate, and syncs with your AgTerra account as soon as you're back online.

FLEXIBLE DESIGN TOOLS

Start Collecting Critical Data Today

Create forms quickly and send them to the field instantly with AgTerra's drag-and-drop web designer. Easily build complex forms or upload existing ones from Excel files.

POWERFUL, INSTANT REPORTING

Strider Web Dashboard

All your records from different users and various forms are immediately accessible in your private, secure web-based account, allowing you to query, organize, and analyze as you wish.

PRINT OR EMAIL REPORTS

Show Off a Job Well Done

With Strider's Report Designer, instantly share data as PDF files. Organize and style content using tables, colors, fonts, and include maps, photos, and logos. Reports can be emailed to selected recipients upon form submission.
